WHO IS PULLING CAT'S TAIL!

"L.G." AND SAMUELITE MINISTERS

(Special to "Telegraph.")

London, Sept. 21.

All doubts having now been removed regarding the hositlity of the Liberals to the Ottawa Agreements, there is now much speculation regarding future political developments.

It is generally believed that the Samuelite Liberals, led by the Home Secretary, will tender their resignations after next week's Cabinet meeting. In some circles. however, it is thought possible that another agreement to disagree will avert a break-up of the National Government.

For the moment, Sir Herbert Samuel and his colleagues remain silent regarding their intentions, though a public statement is expected shortly.

#### LIBERAL RESOLUTION.

meeting of the Executive Committee of the National Liberal Federation was held to-day to discuss the attitude of the Party on the Ottawa Agreements.

The discussion occupied over two hours, after which a brief communique was issued stating that the Committee had passed a resolution condemning the conclusions reached at the Ottawa Conference.

The Home Secretary, Sir Her bert Samuel, made a statement at the outset of the meeting.

North did not have much to do with the bidding. His partner in the South opened with the queen of spades which East won with the ace. East then led a small club. winning in dummy with the queen. His next play was the queen of diamonds from dummy, and when North refused to cover, East dropped the jack. Declarer then ledthe 10 of diamonds from dummy. North played the seven and declarer played the eight. The four of diamonds was led from dummy, North played the king and East, the declarer, won the trick with

The declarer's next play was the six of hearts, the 10 being finessed from dummy. It looked quite intural for North to win the trick with the jack, but here is where he pulled off his false card play-he won the trick with the king and then returned the four of spades which East won with the king. The declarer led the ace of clubs, South's jack falling on the trick and a small heart was discarded from dummy. He then led the deuce of hearts, and due to the false-carding by winning the trick with the king, the declarer thought that South held the jack and now finessed the nine of hearts which North won with the jack and returned the seven of clubs. Declarer finessed the nine apot and then cashed his king of clubs, but he was now forced to lose the last two snade tricks.

The declarer should not have been deceived by the false-carding because if South had held four hearts to the inck and only four spades he would have undoubtedly ovened the hearts rather than the four-card spade suit as the spades had been bid by East. Knowing that South does not hold four hearts, the declarer could get a perfect count on the hand and should go up with the queen of hearts knowing that they will break. In this manner he would have made a small slam.

ARNOLD BENNETT'S LAST STORY

## "DREAM OF DESTINY"

The exclusive serial publication rights of the late Mr. Arnold Bennett's last long (unfinished), fiction story, have been acquired by the "Hongkong - Telegraph."; The story ends leaving the principal characters in a dilemma and presents an interesting problem as to what solution Mr. Arnold Bennett intended to offer. Death came before the author could complete the work, but this does not destroy its worth or its readable quality, but rather adds a mystery value which will intrigue the reader. The importance and prestige attaching to the author's name does not need to be

stressed.

## £300,000,000

ANNUAL DEMAND

TT HAS been reliably estimated that the annual demand for pulp, paper, and timber in the principal countries of the world, amounts to over £300,000,000 annually. Realising the vital importance of wood-pulp in tworld trade and the grave risk of a shortage of supplies, New Zealand Perpetual -Forests, Ltd. have advanced on a progressive plan of afforestation. Out of this plan has arisen a long-term investment opportunity which bond capital to the extent of £3,500,000 has been quick to take advantage

With a conservatively estimated yield of £250 in twelve years, the £30 bondspayable by instalments-have attracted over 85,000 investors.

It had have been reduced and are mostpioneers of motoring were similarly its artificial points of honour ly absorbed by taxes which go the compartment, especially those obstructed to an even greater extent, for the owners of early cars had to cope in addition with the curse of over-enthusiasm. 'Even if the average car-owner of thirty year ago tempered his pride of ownership by a sense of proportion, his wife and family could always standard which no car of that period could possibly achieve. The inevitable result was that the actual achievements of those motoring pioneers were entirely eclipsed by the gibes and sneers evoked by failure to attain the speed and efficiency so inanely promised. The wonder of a motor-trip of twelve miles in an hour was regarded merely as failure to cover the vaunted sixty miles in the same

The League quickly realised that a paramount need was the elimination of war, and, as a natural corollary, that disarmament is an integral factor of that need. The progress and achievements of the League to date, however, have been eclipsed in the eyes of the average citizen, precisely the same way as were early motoring triumphs, by disappointment because the frothy claims of unbalanced enthusiasts have not at once materialised. As soon as the League was formed, the extremists waved their banners and claimed that war and armaments

as though the League had in a few months adjusted the evils of many centuries of growth. The result is palpable. Every time a nation shows signs of pugnacity, every time a battleship is launched, the cry is raised that the League has failed. Stopped wars, adjusted quarrels, all the achievements of the League are regarded as the equivalent of the 12 m.p.h. of those early motors, and their inability to run at 60 m.p.h. as had been foolish-

ly promised on their behalf. Let the detractors of the League remember, however, that railways survived to become a boon and a necessity, and that motors can now run at over 200 miles per hour. Let them realise, too, that the development of railways and motors is due to perseverance in spite of obstructive difficulties. We must BUMPERS realise, above all, the League Nations is the only hope of SPARE TIRES & TUBES | humanity and that therefore it must not be easily abandoned at the behest of those who would batten on the world's wars and who have found in the foolish claims of the extremists their only weapon against the League,

### Cosmetics Cannot Clear A Skin Clouded by Poisons

If women only realised what damage constipation can do to their looks they would dread it more than they dread time itself. For constipation—by setting up a state of self-poisoning starves tissues and muscles of pure blood, without which they cannot retain their firmness and youth. The purpose of Eno's 'Fruit Sait' is to guard you against the slightest approach of this menace. Working by osmosis -Nature's own method-Eno makes sure that the foodways are punctually cleared before waste matter has time to become poisonous and infect the system. Eno is safe, sure and sufficient. Take Eno every morning.

(Our Own Correspondent).

Shameen, Sept. 21. The annual general meeting of the Shameen Sports Club was held in the Canton Club last evening, the meeting being presided over by H.B.M's Consul-General in his capacity as Hon. President. The election of new committee members was the first item on the agenda, the following being elected-H.B.M.'s Consul-General, Hon. President; Mr. E. R. Hill, Chairman; Messrs. W. G. Gerrard, S. M. Carlisle, J. Linaker, and E. M. E. Sterling, Hon. Secretary.

Officers chosen for the year were Messrs. W. G. Gerrard, Captain of Football; J. W. Pote-Hunt, Vice-captain of Football; S. M. Carlisle. Captain of Hockey; E. Von. Essen, Vice-captain of Hockey; J. Linaker, Captain of Cricket; G. Harvery Biggs, Captain of Baseball.

#### INVITATION TO HONGKONG.

With a view to promoting the friendly rivalry which has existed in various forms of sport for many years past between Canton and Hongkong, it has been decided to issue invitations to various Hongkong Clubs to visit Canton during the season to play hockey and soccer,

Although the total number of playing members of the Shameen Sports Club does not exceed twenty, it is really gratifying to note that for several years past the little island has always been able to give a good account of itself against visitors, and it is to be hoped that this year will not prove an exception. The great difficulty for the best players is to get sufficient practice, and it has been in this direction that Shameen's weakness has lain, ground facilities are also limited, and it is difficult for any individual to get more than one game of each branch of sport in any week.

#### SOCCER PROSPECTS.

Shameen League Soccer will be starting shortly, and from what has been whispered, the present holders of the Shield, the Shameen Sports Club, will have a stiff fight to hold it again this year against one or two of the Navy teams, which are in process of getting together.

The Portuguese will not be entering a team again, owing to the difficulty in getting together a sufficiently strong side.

The feeling is that Shamcon will be able to field a stronger hockey team than last year, with the addition of one or two new players, and it is felt that the season will be a brisk one for all concerned. It is a pity that the Chinese Clubs in the city do not take to the game, which should be admirably suited to the Chinese, who could make up for their lack of weight in speed and quickness of of the literature of the laterature of the later

### THE KICK-OFF

SOCCER TEAMS PREPARE

ARMY V CHINESE

Soccer in Hongkong will prepare to come into its own for the 1932-33 season this approaching week-end, when a series of friendly matches are being played between teams competing in the local football league.

The Army and the Chinese have arranged an attractive programme and as all teams will be at full strongth, fairly accurate estimations of the season's prospects in regards to the various combina-

tions can be made. The Argylls, despite the fact that they will be lost to local 'fooball after October, are taking the opportunity of a thoroughly good practice and will be entertained by South China on Saturday, whilst on Sunday, the South Wales Borderers will be on view against South

China at Sookunpoo. The South China Athletic programme for this week-end is:

#### K.C.C. REPORT

#### Year's Activities Reviewed

### MANY ACHIEVEMENTS

The committee of the Kowloon Cricket Club has published its report to be presented at the annual meeting on Friday, September 30.

The report inter alia reads: The working account shows a balance of income over expenditure of \$1,821.41, about \$200 less than last year. The decrease is due to the considerably Ihrger allowance that has had to be made for depreciation, in particular of gear. With this item taken into account, the position may be considered very satisfactory.

Our assets now include the amount expended on the New Club House up to the end of the Club year, July 31st. \$50,813.55, and also the cost of the two Billiard Tables, \$3,940.80, but in respect of one of the tables there is a set-off of \$1,635.00 made up of private subscriptions. This amount has been considered as a Depreciation Baserve.

#### MEMBERSHIP.

Since 1st August, 1931, 72 new members have joined the Club, 7 old members rejoined and 93 Names were removed on account of Resignations, Departures from the Colony and other reasons. The present Membership is 309. On account of the anticipated re-

moval to the new building no concerts were held. Bridge tournaments and matches were, as usual, an enjoyable feature. The Grounds, both upper and lowers-

Three teams were entered in the Tennis League and met with very disappointing results. We also entered the Mixed Doubles League with fair success.

The Annual Tournament for this year was organized on entirely different lines, with the intention of completing the seven events, as well as a Consolation event, within a fort-night. A further innovation was the introduction of a Junior Singles Championship, which we think will: serve the useful purpose of discovering new talent.

The first team is to be congratuinted on winning the Championship of the Lawn Bowls League in the season of the Club. The second tram, after being in the running for the free transfer to the first time in the history.

#### NOTES SUPPLIED BY THE THEATRES

"Tarzan, the Ape Man," Intest Metro-Goldwyn-Mayer jungle adventure ploture, which opens to-day at the Queen's Theatre, is a thrilling successor to "Trader Horn," made by the same company. Both productions were directed by W. S. Van Dyke, the famous explorer-director. An interesting portrayal in the picture is that of Johnny Weissmuller, world's champion swimmer, chosen for the title role because of his tremendous physical build. His terrific muscular drive, developed by years of swimming, seemed to be a great aid to him in awinging through jungle trees at dizzying heights. The championship technique which won him many world records is amply demonstrated in the vivid swimming

Most African adventure pictures succeed only in being fantastic but M-G-M has followed the precedent they established with "Trader Horn" and has succeeded in faithfully transferring to the screen all the breathtaking thrills of the widely-read Edgar Rice Burroughs story. The authentic atmosphere of the original locale in the region surrounding Lake Alberta and the Mountains of the Moon provides an effective background for the production.

In the role of a young adventurer who accompanies the safari, Neil Hamilton gives a fine performance. Usually seen in drawing room roles, Hamilton goes "African" for this production and is able to look comfortable in a pair of British khaki shorts which is a credit to any player. Maureen O'Sullivan' scores as the heroine who finally falls in love with Tarzan. C. Aubrey Smith gives a rugged characterization as the head of the safari and praiseworthy performances are also contributed by Doris Lloyd, Forrester Harvey and Ivory Williams. Director Van Dyke has handled the many exciting jungle episodes to get the most out of them. His vast African experience was evidently a great aid to him in securing unusual animal scenes never before photographed. The elephant charge through the native village is one of the most breath-taking scenes ever shown on the screen.

#### . "Devil's Lottery."

Elissa Landi, who scored so successfully in "The Yellow Ticket", portrays a different type of role in Devil's Lottery", the Fix picture that opens at the King's Theatre next Sunday, She appears as a woman against whom scandal has breathed hard because she has been carcless in the selection of her company and has become a social outeast. Already established as an actress of splendid capabilities, Miss. Landi in this picture gives, what is unquestionably the best performance of her career. Victor McLagalen chacts the most vital male role, a part that gives him the best opportunity he has enjoyed in any of his recent pictures. Others deserving mention for their convincing characterizations are Beryl Mercer, Ralph Morgan, Alexander Kirkland, Paul Cavanagh and Herbert Mundin. The comedy work of Mundin stands out in bold

The picture was directed by Sam Taylor, who is deserving of much eredit for his deft handling of the large cast and the many dramatic situations. 'Gay Bolton is credited with the adaptation.

#### "The Strange Case of Clara Deane."

Wynne Gibson, the talented young actress who stepped from the musical comedy stage to success in the talkies by way of "Nothing But the Truth,"
"Two Kinds of Women", has her first big starring role with Paramount in "The Strange Case of Clara Deane", which is now showing at the King's Theatre. In this talkie version of Arthur M. Brilant's brilliant stage hit, Miss Gibson attains to heights that will bring her great fame in the arinals of the photoplay. As Scotsmen we are deeply in his debt. More than any other he helped to fuse Highlands and Lowlands and make Scotland a unity. He also produced in England and even on the Continent a Scottish cult at a time when Scottish loyalty was not above suspicion. Who but Scott could have arrayed George IV in a kilt and what magic but his could have caused the grandnephew of the Duke of Cumberland, the Butcher of Culloden, to propose the toast: "The Chieftains and and Clans of Scotland!" It was through Scott's romances that the tartan became Scotland's emblem and the pipes her music. #### KOWLOON'S NEEDS

The commencement of an experiment for substituting locally-engaged for European officers in some of the more responsible Government posts formed one of the most interesting announcements in a rather colourless Budget presented in Legislative Council this afternoon, by the Hon. Colonial Secretary.

A clever bit of false-carding held the declarer to four odd in the following hand:

East then led a small club. winning in dummy with the queen. His next play was the queen of diamonds from dummy, and when North refused to cover, East dropped the jack. Declarer then led the 10 of diamonds from dummy. North played the seven and declarer played the eight. The four of diamonds was led from dummy, North played the king and East. the declarer, won the trick with

the are. The declarer's fext play was the six of hearts, the 10 being finessed from dummy. It looked quite natural for North to win the trick with the jack, but here is where he pulled off his false card play—he won the trick with the king and then returned the four of spades which East won with the king. The declarer led the ace of clubs, South's jack falling, on the trick and a small heart was discarded from dummy. He then led the deuce of hearts, and due to the false-carding by winning the trick with the king, the declarer thought that South held the jack and now finessed the nine of hearts which North won with the jack and feturned the seven of clubs. Declarer finessed the nine spot and then cashed his king of clubs, but he was now forced to lose the last two spade tricks.

The declarer should not have been deceived by the false-carding because if South had held four hearts to the jack and only four spades he would have undoubtedly ovened the hearts rather than the four-card spade suit as the spades had been bid, by East. Knowing that South does not hold four hearts, the declarer could get a perfect count on the hand and should go up with the queen of hearts knowing that they will break. In this manner he would have made a small slam.

ARNOLD BENNETT'S LAST STORY

## "DREAM DESTINY

The exclusive serial publication rights of the late Mr. Arnold Bennett's last long (unfinished) fiction story. have been acquired by the "Hongkong Telegraph." The story ends leaving the principal characters in a dilemma and presents an interesting problem as to what solution Mr. Arnold Bennett intended to offer. Death came before the author could complete the work, but this does not destroy its worth or its readable quality, but rather adds a mystery value which will intrigue the reader. The importance and prestige attaching to the author's name does not need to be

There are two other soldiers concerned and further property valued at \$860 still to be recovered. He has consistently refused to assist the Police at all. I had expected that during the week's remand he would do something, but he refused to "come through" with anything at all.

#### HILLSIDE SEARCHES.

Inspector Chester Woods said he had tried his utmost to recover the property apart from finding the two other men, and working on the theory that the booty might have been buried somewhere on the hillside, he had had detectives searching the vicinity of the barracks, particularly where three or four shorts cuts had enabled soldiers to break from barracks.

The search had been fruitless. ONLY the doubles match between E. D. Andrews, M. W. Lo and Tsui Wai-pui and Ho Ka-lau saved the tennis exhibitions at the Hongkong Cricket Club yesterday, from degenerating into something approaching a farce.

Opposed by E. C. Fincher in a singles, Andrews scarcely had to exert himself so weak was the local player. Fincher was so obviously out of condition that it would have been far better if he had been put in the doubles and Tsui given to Andrews as his opponent in the singles.

### SPORTS IN CANTON

PROSPECTS FOR THE SEASON

#### INTER-COLONY CONTESTS

(Our Own Correspondent).

Shameen, Sept. 21. The annual general meeting of the Shameen Sports Club was held in the Canton Club last evening, the meeting being presided over by H.B.M's Consul-General in his capacity as Hon. President. The election of new committee members was the first item on the agenda, the following being elected-H.B.M.'s Consul-General, Hon. President; Mr. E. R. Hill, Chairman: Messrs. W. G. Gerrard, S. M. Carlisle, J. Linaker, and E. M. E. Sterling, Hon. Secretary.

Officers chosen for the year were Messrs. W. G. Gerrard, Captain of Football; J. W. Pote-Hunt, Vice-captain of Football; S. M. .Carlisle, Captain of Hockey; E. Essen, Vice-captain of Hockey: J. Linaker, Captain of Cricket; G. Harvery Biggs, Captain of Baseball.

#### INVITATION TO HONGKONG.

With a view to promoting the friendly rivalry which has existed in various forms of sport for many years past between Canton and Hongkong, it has been decided to issue invitations to various Hongkong Clubs to visit. Canton during the season to play hockey and soccer.

Although the total number of playing members of the Shameen Sports Club does not exceed twenty, it is really gratifying to note that for several years past the little island has always been able to give a good account of itself against visitors, and it is to be hoped that this year will not prove an exception. The great difficulty for the best players is to get sufficient practice, and it has been in this direction that Shameen's weakness has lain, ground facilities are also limited, and it is difficult for any individual to get more than one game of each branch of sport in any week.

#### SOCCER PROSPECTS.

Shameen League Soccer will be starting shortly, and from what has been whispered, the present holders of the Shield, the Shameen Sports Club, will have a stiff fight to hold it again this year against one or two, of the Navy teams, which are in process of getting together.

The Portuguese will not be entering a team again, owing to the difficulty in getting together a sufficiently strong alde.

The feeling is that Shameen will be able to field a stronger hockey team than last year, with the addition of one or two new players, and it is felt that the season will be a brisk one for all concerned. It is a pity that the Chinese Clubs in the city do not take to the game, which should be admirably suited to the Chinese. who could make up for their lack of weight in speed and quickness of ayou It has been taken up

### THE KICK-OFF

SOCCER TEAMS PREPARE

#### ARMY'V CHINESE

Soccer in Hongkong will prepare to come into its own for the 1932-33 season this approaching week-end, when a series of friendly matches are being played between teams competing in the local football league.

The Army and the Chinese have arranged an attractive programme and as all teams will be at full. strength, fairly accurate estimations of the season's prospects in regards to the various combinations can be made.

The Argylls, despite the fact that they will be lost to local fooball after October, are taking the opportunity of a thoroughly good practice and will be entertained by South China on Saturday, whilst on Sunday, the South Wales Borderers will be on view against. South China at Sookunpoo.

The South China Athletic programme for this week-end, is:

#### SATURDAY. 🛷

#### K.C.C. REPORT

#### Year's Activities Reviewed

#### MANY ACHIEVEMENTS

The committee of the Kowlcon Cricket Club has published its report to be presented at the annual meeting on Friday, September 30.

The report inter alia reads: The working account shows a balance of income over expenditure of \$1,821.41, about \$200 less than last year. The decrease is due to the considerably larger allowance that has had to be unade for depreciation, in particular of gear. With this item taken into account, the position may be considered very satisfactory.

Our neacts now include the amount expended on the New Club House up to the end of the Club year, July 81st. \$50,813.55, and also the cost of the two Billiard Tables, \$3,940.80, but in respect of one of the tables there is n set-off of \$1,635.00 made up of private subscriptions. This amount has been considered as a Depreciation Reserve.

#### MEMBERSHIP.

Since 1st August, 1931, 72 new members have joined the Club, 7 old members rejoined and 93 Names were removed on account of Resignations, Departures from the Colony and other reasons. The present Membership is 300. On account of the anticipated re-

moval to the new building no concerts were held. Bridge tournaments and matches were, as usual, an enjoyable feature. The Grounds, both upper and lower, ... have received careful attention during

the year and are in excellent condi-

#### CRICKET AND TENNIS.

The Club experienced a most onjoyable season in 1931-32 and, but for a marked weakness in bowling, would have been much more successful. The 2nd XI were unlucky in not winning the . Junior Division of the Lengue. Three teams were entered in the

Tennia League and met with very disappointing results. We also entered the Mixed Doubles League with fair success. -

The Annual Tournament for this year was organized on entirely different lines, with the intention of completing the seven events, as well as a Consolation event, within a fortnight. A further innovation was. the introduction of a Junior Singles Championship, which we think will serve the useful purpose of discovering new talent.

The first team is to be congratulated on winning the Championship of the Lawn Bowls League in the season 1981, for the first time in the history of the Club. The second team, after being in the running for the greater

> "Grit" was the expression used by a woman, next charged, alluding to opium found on her by woman searcher. She was fined \$100, or one month.

> is understood to accept the principle of the suggested compromise and the Pundit Malaviya will visit Gandhi to discuss the proposal.

> Gandhi's fast, which began yesterday, has been undertaken as protest against the proposal in the Government's communal award whereby the Depressed Classes, while being permitted to qualify for votes in the general Hindu communities, were for a period of twenty years assured of a minimum number of spokesmen in Legislatures through separate electorates.

#### GANDHI'S VOW.

Gandhi vowed he would fast unto death or until the award in this respect was modified, but the Prime Minister stated in his recent letter that the award, which was reluctantly made at the request of the Indians, must stand, and only an agreement of the communities themselves- could substitute any other electorate arrangements for those Government had devised in a sincere endeavour to weight the conflicting claims on their joint merits.

The Bombay conference was called in an attempt to achieve such agreemment and thus put an end to the fast. Strong hopes of the compromise being generally To-morrow, the Depressed Clas- accepted are entertained .- British
